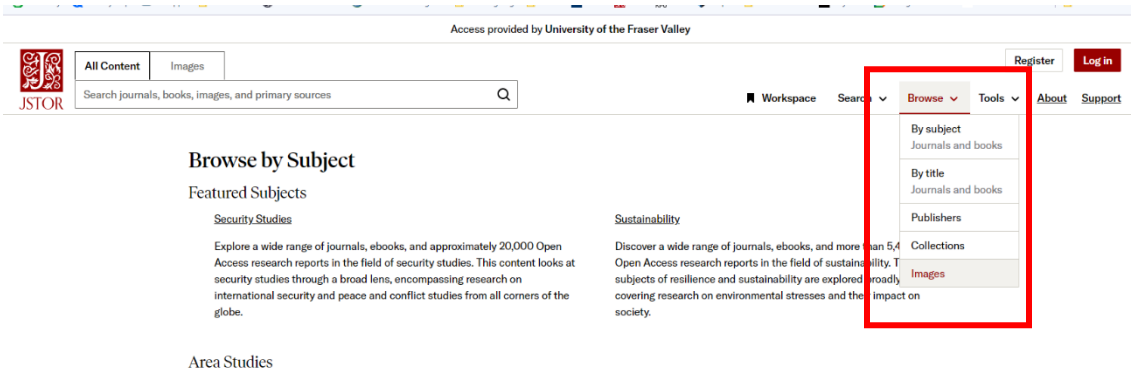
Creation of Persistent Links

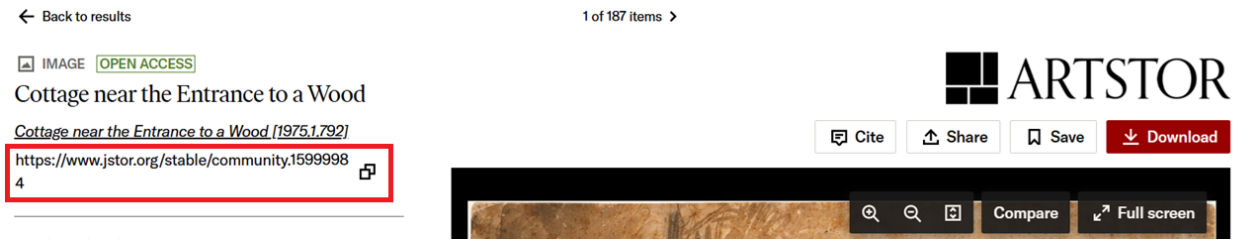
JSTOR images

Persistent links direct students to specific full-text journal documents found in our research databases. These links are stable, and can be accessed from both on and off campus. These links could be used for e-reserves, electronic reading lists or incorporating into Brightspace and other online course resources.

1. Go to JSTOR. Click on Browse and go to Images from the drop-down menu. Choose your desired image.



2. To the left, copy the URL.



Please note that this URL does not include the UFV Library OpenAthens server prefix, which is essential to providing off-campus access to the stable link.

3. Go to our OpenAthens Link Generator and paste the link. Hit Copy for the permalink.

4. The finished URL will look like this:
https://go.openathens.net/redirector/ufv.ca?url=https%3A%2F%2Fwww.jstor.org%2Fstable%2Fcommunity.15999984

5. Just a reminder that JSTOR asks you to create an account. You do not need to. All you need to do is X (close) out of the window and you will see your artwork.
