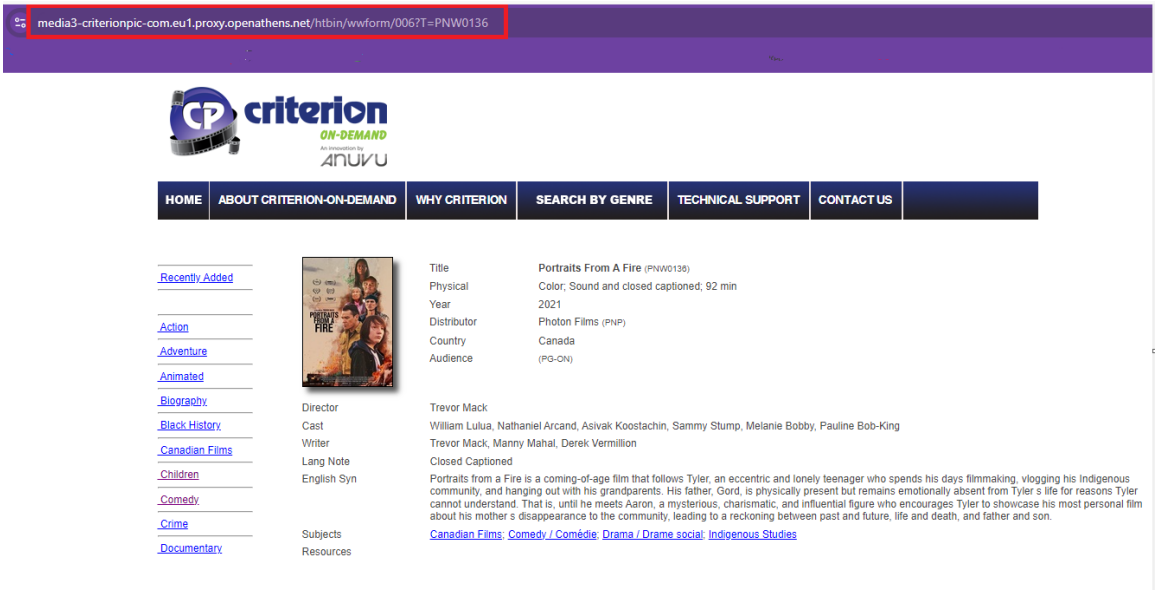
Creation of Persistent Links

Criterion on Demand

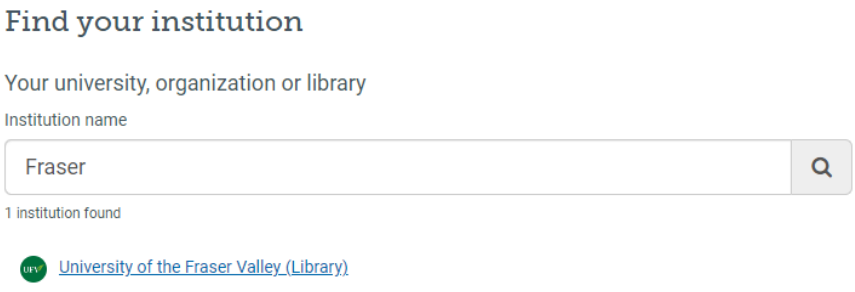
Persistent links direct students to specific full-text journal documents found in our research databases. These links are stable, and can be accessed from both on and off campus. These links could be used for e-reserves, electronic reading lists or incorporating into Brightspace and other online course resources.

1. Choose your video/segment and copy the url.



2. The URL will look something like this: https://media3-criterionpic-com.eu1.proxy.openathens.net/htbin/wwform/006?T=PNW0136

   This link works on and off campus but your students will have to "Find your institution"



3. If you want to save your students a step about choosing the institution, then you need to do some steps first.

4. Replace the "**–**" with a period. https://media3.criterionpic.com

5. And delete this: **.eu1.proxy.openathens.net.**

6. The URL should now look like this: https://media3.criterionpic.com/htbin/wwform/006?T=PNW0136

7. Put this URL in our OpenAthens Link generator. Put your corrected URL in the box (https://media3.criterionpic.com/htbin/wwform/006?T=PNW0136) and the generator will generate a link. Copy.

8. The finished URL will look like this: https://go.openathens.net/redirector/ufv.ca?url=https%3A%2F%2Fmedia3.criterionpic.com%2Fhtbin%2Fwwform%2F006%3FT%3DPNW0136
